HOW IS THE BIOTECH MAGNETIC ENERGY BRACELET GOOD FOR OUR HEALTH ?

Work pressure, lack of exercise, the body will positively and negatively charged electromagnetic radiation disorganised, reducing motor function, the formation of sub-health state.

Current balancing effect of negative ions, positive and negative charges to restore the body balance, so as to enhance body functions, improve the sub-health state.

PRODUCT

Q&A

1. What is Magnetic therapy?

Magnetic therapy is based on the theory that when delivered directly to the body magnetic field can stimulate healing from a range of health problems. Although its health claims include the treatment of multiple sclerosis, fibromyalgia, arthritis, insomnia, inflammation and even cancer and heart disease, there is little scientific evidence for magnetic therapy's effectiveness.

PRODUCT

Q&A

2. How does the Biotech Magnetic Energy Bracelet work?

The magnetic revolves in the arteries around the wrist, which magnets improve the circulation gives the body more of nutrients it needs in the blood, improving health naturally.

Magnetic function :

- * Effects to neural system
- * Effects to blood vessel system
- * The effects of magnetic field to immunity function
- * The effects of magnetic field to enzyme activity

PRODUCT

Q&A

3. What is Far-infrared rays?

Far-infrared rays are part of the sunlight spectrum which is invisible to naked eye. Far-infrared has been proven by scientists to promote the growth and health of living cells in human beings, plants and animals.

Far-infrared function :

- * Accelerates blood circulation
- * Adjusts blood pressure
- * Improves arthralgia
- * Adjusts autonomic nerve
- * Promotes metabolism

PRODUCT

Q&A

4. What is Negative ion?

Negative ion have invigorating effect on the human body and are created naturally by the energy associated with rolling surf, waterfall and lightning. The levels of negative ion present in different environments highlight the deficiency of negative ions in our everyday domestic environment.

Negative ion function :

- * Directly affects of Negative ion on human health
- * The main performance of Negative ion for human body.

Q&A

5. What is Germanium?

Germanium is a chemical element with the symbol Ge and atomic number 32. It is a lustrous, hard-brittle, grayish - white metalloid in the carbon group, chemically similar to its group neighbours silicon and tin. Pure germanium is a semiconductor with an appearance similar to elemental silicon.

Germanium function :

- * Increases body temperature
- * Accelerates blood circulation
- * Reduces fatigue

PRODUCT

Q&A

6. Can I use the Magnetic Bracelet around my computer and other electronic equipment ?

The magnetic bracelet can be used around the computer and other electronic office equipment with care. Do not place magnetic bracelet directly on computer. Do not let magnetic bracelet come in contact with credit cards or other cards that utilise a magnetic strip for scanning, video tapes or computer diskettes etc.

PRODUCT

Q&A

7. Have any side effect?

The magnetic therapy is very safe. The World Health Organisation (WHO) has confirmed that static magnetic field poses no health risks at all. No complications have ever been reported with its proper use

PRODUCT

Q&A

10. Should I wear a Magnetic Bracelet all the time?

Yes, you can wear magnetic bracelet all the time, the more you wear your magnetic bracelet the more will reap the benefits of magnetic therapy with the potential to promote pain relief, reduce inflammation and improve sleep quality, therapeutic magnets may be able to increase overall well-being.

PRODUCT

Q&A

11. Do Magnets Bracelets lose power and can they be worn with a watch ?

The magnetic field loses less than 1% of their strength each year, so practically, there is no real reason to replace them. It is possible that the magnets in a magnetic bracelet, when worn alongside a watch, may affect timing of a watch. If you have a battery operated watch, the magnets may drain the power from the battery.

PRODUCT

Q&A

12. Who should not wear the Magnetic Bracelet?

Despite the popularity of magnetic bracelets, science has largely disproven the effectiveness of such magnets in treating chronic pain, inflammation, disease and general health deficiencies. Don't use magnets as a replacement for proper medical attention and avoid them if you have a pacemaker or use an insulin pump.
