BONETRON

BIO  **TECH™**

BONETRON

WHAT IS BONETRON ?

Bonetron has a high collagen concentration that is vital in skin health, muscle mass, bones, and joints. There are no additives in this food so it is perfectly safe to consume especially for those who have sensitive guts. The appearance of smile lines and crow's feet will reduce as elastin and collagen production will be boosted. It is rich in proteins, Zinc and Amino acids. The nutrients help to metabolise carbohydrates and fats, improve skin hydration, reverse-ageing and helps the body to maintain a good health by boosting the immunity.

CONTAINS 3 NATURAL INGREDIENTS

COLLAGEN PEPTIDES

SOYA POWDER

SOY PEPTIDES

Soy PEPTIDES

Soy peptides is a small molecule protein, which is easily absorbed by the human body. It is extracted by the biotechnological enzyme into a small fragment amino acid. Soy peptides contains 22 amino acids, including 9 essential amino acids that cannot be synthesised by the human body. Soy peptides are known as intermediate products of protein digestion, they claim to helps build muscle, boost weight and fat loss, and help with muscles recovery.

SOYA POWDER

Soya powder is basically ground soybeans pulverised into powder. Soya powder may reduce the risk of a range of health problems, including cardiovascular disease, stroke, coronary heart disease (FHD), some cancers as well as improving bone health. Soy foods is a high quality protein, it can help the body deal with stress, effectively helping the individual to maintain an equitable mental and emotional balance, one or two daily serves of soy foods can be beneficial of our health.

Collegen peptides are very small pieces or protein from animal collagen. Collagen is one of the materials that makes up cartilage, bone, and skin. Daily collagen supplements can help make your bones denser, slowing the aging process that makes them brittle and helping your body to produce new bone. Its also have been shown to improve skin hydration and elasticity for older people.

COLLAGEN PEPTIDES

The image shows a document page framed by a thick, ornate, dark brown border. A vibrant red and white striped ribbon, resembling a candy cane, swirls diagonally across the page from the bottom left towards the top right. The document itself is a nutrition facts label for a product identified as HNSA22057125-AF77004. At the top left of the label is the 'SGS' logo. Below it, the text 'TEST REPORT: HNSA22057125-AF77004' is printed. To the right, 'REPORTED DATE: 27-May-2022' is shown. The main title of the section is 'APPENDIX: NUTRITION FACTS', with 'SAMPLE ID: AF77004' and 'NOMINATION: 100% FRESH CELERY' listed below it. The nutrition facts are presented in a table with two columns: 'Per 100g' and 'Per Sp'. The rows include Energy, Carbohydrate, Protein, Fat, Total Sugars, Dietary Fiber, and Sodium. The values for 100g are 368 kcal, 0.0 g, 0.0 g, 0.0 g, 0.0 g, 0.0 g, and 0.0 g respectively. The values for 10g are 36.8 kcal, 0.0 g, 0.0 g, 0.0 g, 0.0 g, 0.0 g, and 0.0 g. Below the table, there is a small text block containing a disclaimer and contact information for SGS Malaysia. The text is small and partially obscured by the ribbon. At the bottom right of the page, it says 'Page 8 of 8'.
